ABOUT STACK MATCH

Built for one decision: choosing the right software.

Stack Match is an independent UK review and comparison site for business software. We help small business owners, accountants and bookkeepers choose the right tools through detailed reviews, side by side comparisons and UK pricing guides. Everything is written for the reader first.

We are funded by clearly disclosed affiliate partnerships. Commission never moves a product up a ranking, softens a criticism or hides a weakness, and that promise is published on every page of the site.

WHAT WE COVER

Accounting

Payroll

HR

CRM

ERP

More than 30 products reviewed and compared, including Sage, Xero, QuickBooks, FreeAgent, BrightPay, Zoho and monday.com.

CONTENT FORMATS

01	In depth reviews	Scored rating dimensions, pros and cons, and a verdict written for buyers.
02	Side by side comparisons	Two products on one page, feature by feature, with a clear recommendation.
03	UK pricing guides	Plans, per user costs and the extras vendors do not shout about, checked by hand.
04	Alternatives pages	The strongest options around every product we cover, ranked and explained.
05	Buying guides	Practical guides for shortlisting, switching and rolling out new software.

WHO READS STACK MATCH

Readers with a shortlist and a budget.

Small business owners

Choosing their first accounting or payroll system, or replacing one that no longer fits.

Accountants and bookkeepers

Advising clients on software and standardising the stack inside their own practice.

Finance and operations leads

Comparing plans, pricing and integrations before giving the final sign off.

Readers arrive through organic search, actively researching a purchase.

They come to compare, shortlist and choose. That is the whole product.

OUR STANDARDS

- ✓ **Disclosure on every page** A clear affiliate notice sits beside every link that can earn commission, in line with ASA and CAP guidance.
- ✓ **Public editorial policy** How we test, score and rank is published on the site for anyone to read.
- ✓ **Moderated reviews** Reader submissions are checked before anything goes live on a product page.
- ✓ **UK GDPR by design** Consent records behind every signup. No bought lists and no tracking soup.
- ✓ **Hand checked data** Prices, plans and product claims are verified against vendor sites.

**Commission never moves a product up a ranking,
softens a criticism or hides a weakness.**

From our affiliate disclosure, published at stackmatch.uk

PARTNER WITH US

Placements where the decision happens.

Affiliate placements sit inside the content buyers read last before choosing. We work on CPA through networks such as impact.com and only take on products that genuinely fit our readers.

Review pages

The primary call to action beside verdicts, scores and pros and cons.

Comparison tables

Visit buttons for both products on every head to head page.

Pricing sections

Plan cards with a call to action on every product profile.

HOW WE WORK WITH BRANDS

CPA first

We earn when you make a sale, through impact.com and similar affiliate networks.

Fit before fees

Products must suit UK small businesses before any partnership is agreed.

Accuracy guaranteed

Your pricing, plans and claims are represented correctly and kept current.

Compliant by default

Disclosure, UK GDPR and advertising rules are built into the site, not bolted on.

CONTACT

Let's talk.
